Okara , Pakistan | 0316-1648664 | muhammadtahir8600@gmail.com | linkedin.com/in/tahirseo

PROFESSIONAL SUMMARY

SEO Specialist with 2+ years of hands-on experience in WordPress SEO, local SEO, technical SEO, keyword research, content optimization, internal linking, Google Search Console, and GA4 reporting. Currently working in a US-based remote SEO role for New York construction and home-service websites, improving organic visibility, indexing, CTR, rankings, and lead-generation performance. Strong at turning search data, competitor gaps, and page-level issues into clear SEO actions that support business growth.

CORE STRENGTHS

- WordPress on-page SEO
- Local SEO for service businesses
- Keyword research & mapping
- Technical SEO audits
- Google Search Console fixes
- GA4 performance review
- Internal linking strategy
- SEO content optimization
- Indexing & redirection support

WORK EXPERIENCE

SEO Specialist - US-Based Remote Job (Current) | New York Construction & Home-Service Websites — **2025 - Present**

US-Based Remote Role | Pakistan

Website proof: nypavers.com | nyconcrete.us | homeflexcorp.com

- Handle day-to-day SEO execution for US construction and home-service websites, including WordPress page optimization, content updates, technical fixes, and local SEO improvements.
- Improve service pages, borough/location pages, and blog content with stronger SEO titles, meta descriptions, headings, FAQs, keyword placement, image alt text, and internal linking.
- Use Google Search Console and GA4 to review impressions, clicks, CTR, indexing coverage, search queries, and page-level opportunities for growth.
- Support lead generation by improving landing page clarity, trust sections, CTA placement, content depth, and SEO alignment for high-intent service keywords.
- Manage indexing and technical SEO tasks including sitemap checks, redirect planning, crawl issue review, broken link checks, and on-page structure improvements.

WordPress SEO & Website Optimization | YourOwnRides — **Project-Based Remote**

Dubai/UAE

Website proof: yourownrides.com

- Built and optimized a WordPress website for a ride-service business, including homepage, service pages, fleet pages, and contact pages.
- Applied SEO best practices across title tags, meta descriptions, H1/H2 structure, image alt text, internal links, and content layout.
- Set up and reviewed Google Search Console, XML sitemaps, indexing status, redirects, and page-speed improvement opportunities.
- Customized responsive Elementor layouts to create a cleaner user experience across desktop and mobile devices.

Research Analyst | Cappersoft

On-Site / Pakistan

- Performed structured research, data validation, and accuracy checks while maintaining consistency across daily analysis tasks.
- Developed strong attention to detail, reporting discipline, and problem-solving skills that support technical SEO execution.
